The accompanying notes are an integral part of these condensed interim financial statements

1. NATURE OF OPERATIONS AND GOING CONCERN

Oceanic Iron Ore Corp. ("Oceanic" or the "Company") is an exploration stage company engaged in the acquisition and exploration of iron ore properties in Québec, Canada. The Company was incorporated on March 8, 1986 under the British Columbia Business Corporations Act. The Company maintains its head office at 595 Burrard Street, Suite 3083, Vancouver, British Columbia. The Company's registered/records office is located at 1500 – 1055 West Georgia Street, Vancouver, British Columbia. Its common shares are traded on the TSX Venture Exchange under the symbol "FEO".

The Company acquired a 100% interest in certain mining claims (the "Property") located near Ungava Bay, Québec, Canada in November, 2010. The Company is currently conducting exploration activity on the Property.

While these financial statements have been prepared on the basis that the Company will continue as a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due, certain conditions and events result in a material uncertainty casting significant doubt on the validity of this assumption. For the nine months ended December 31, 2017, the Company reported a loss of $799,026 and as at that date had an accumulated deficit of $29,259,770 and working capital deficit of $122,443. Despite a private placement financing that completed in September 2017, the Company may need to raise additional funds in order to finance ongoing exploration, development and administrative expenses over the coming 12 months. The Company continues to pursue a number of options to improve its financial capacity, including securing a strategic partner to further advance the Hopes Advance project, and obtaining cash flow through other forms of financing. The success of raising such funds cannot be assured. Factors that could affect the availability of financing include the Company's performance, the state of international debt and equity markets, investor perceptions and expectations, the retention of key executive management and the state of global financial and metals markets. These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption deemed to be inappropriate, and these adjustments could be material.

2. BASIS OF PRESENTATION

These unaudited condensed interim financial statements for the three and nine months ended December 31, 2017 (the "Interim Financial Statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34, Interim Financial Reporting ("IAS 34"). These Interim Financial Statements do not include all disclosures required for annual audited financial statements. Accordingly, they should be read in conjunction with the notes to the Company's audited annual financial statements for the year ended March 31, 2017, which have been prepared in accordance with IFRS issued by the International Accounting Standards Board ("IASB").

These financial statements were approved by the board of directors on February 23, 2018.

3. RECENT ACCOUNTING PRONOUNCEMENTS

The significant accounting policies followed by the Company are set out in Note 3 to the audited financial statements for the year ended March 31, 2017 and have been consistently followed in preparation of these Interim Financial Statements.

New relevant IFRS pronouncements that have been issued but are not yet effective are listed below. We plan to apply the new standard or interpretation in the annual period for which it is first required.

IFRS 9 – Financial instruments

In November 2009, the IASB issued IFRS 9 Financial Instruments as the first step in its project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flows of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument. IFRS 9 amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on the measurement of financial liabilities and de-recognition of financial instruments. The standard is effective for annual periods beginning on or after January 1, 2018. The Company has assessed this standard as currently having no impact to the Company's financial statements.

IFRS 16 – *Leases*

In January 2016, the IASB issued IFRS 16 – Leases which replaces International Accounting Standard 17 – Leases and its associated interpretive guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted for entities that apply IFRS 15. The Company has assessed this standard as currently having no impact to the Company's financial statements.

4. MINERAL PROPERTIES - UNGAVA BAY

a) Acquisition costs

		Nine months ended December 31, 2017		Year ended March 31, 2017

Grand total - mineral properties	**$**	**42,206,596**	$	41,974,448

Under the terms of the acquisition of the Property, the Company must pay advance net smelter return ("NSR") payments of $200,000 per year until the commencement of commercial production. The aggregate advance NSR payments will then be credited against all future NSR payments payable from production. The advance NSR payments included in the purchase price represent the present value of advance payments to the royalty holders until the estimated date of commencement of commercial production.

154619 Canada Inc. is a corporation controlled by Mr. Peter Ferderber, who assigned his original 1% NSR to the numbered company in 2012. The remaining 1% NSR advance royalty payment is due to SPG Royalties Inc. ("SPG"), the assignee of the late Mr. John Patrick Sheridan.

The Company discounted the advance NSR payments using a discount rate of 20%, representing the estimated rate of return of similar investments. The advance royalty liability will be accreted up to the date of ultimate NSR advance payment, resulting in an increase to mineral property acquisition costs and the advance royalty payable. In the prior year, management revised its estimate on the timeline for reaching commercial production, extending the number of advance NSR payments to be paid by the Company, which resulted in an increase in the advance royalty payable.

4. MINERAL PROPERTIES - UNGAVA BAY (continued)

b) Exploration costs (continued)

The total estimated future undiscounted NSR payment as at December 31, 2017 is $1,000,000 (March 31, 2017: $1,000,000) (Note 7). For the three and nine months ended December 31, 2017, accretion of the advance royalty payable totaled $31,546 and $96,323, respectively (December 31, 2016: $201,520 and $266,642, respectively). At December 31, 2017, the total advance royalty payable was $717,630 (March 31, 2017: $621,305), with $369,529 (March 31, 2017: $175,227) recognized as a current liability and $348,100 recognized as a long-term liability (March 31, 2017: $446,078).

On November 20, 2017, the Company signed an amending agreement with 154619 Canada Inc., whereby the annual advance royalty payment of $100,000, originally due on November 30, 2017, was deferred for a period of one year. On November 30, 2018, the Company will have the option to settle the advance royalty payment by cash payment or by way of issuance of Common Shares of the Company.

On January 15, 2018, the Company settled its 2017 advance royalty payable to SPG Royalties Inc. through the issuance of 1,000,000 common shares of the Company, at a price of $0.10 per share.

c) Sino-Canada Debentures

On November 23, 2017 the Company settled the remaining principal amount of the Sino-Canada Debentures of $2,025,329 plus accrued and unpaid interest up to the maturity date of $17,798 through the issuance of 16,734,703 common shares of the Company. The conversion price used to determine the common shares issued to Sino-Canada Debenture holders was based on the volume weighted average share price during the 20 trading days ending on the day before the Company provided notice of its intent to repay the Sino-Canada Debentures in common shares of the Company, being November 17, 2017.

5. CONVERTIBLE DEBENTURES *(continued)*

a) Sino-Canada Debentures (continued)

Accretion expense for the three and nine months ended December 31, 2017 was $62,731 and $253,990 respectively (December 31, 2016: $88,136 and $256,160, respectively).

b) 2017 Debentures

On September 26, 2017, the Company completed a non-brokered financing of $810,000 by way of issuance of convertible debentures (the “2017 Debentures”). The 2017 Debentures carry an interest rate of 8.5%, payable quarterly, with a maturity date of September 26, 2022.

The principal amount of the 2017 Debentures are convertible at any time at the election of the Company. The 2017 Debentures are convertible into Units, whereby each Unit consists of one common share of the Company and one share purchase warrant of the Company. The conversion price during the first year of the 2017 Debentures is $0.08 per Unit, increasing to $0.10 per Unit for the remainder of the life of the 2017 Debentures. Each share purchase warrant entitles the holder to purchase one common share of the Company at a price of $0.10 per common share, expiring September 26, 2022. The 2017 Debentures are secured against the assets of the Company.

For accounting purposes, the 2017 Debentures are separated into their liability and equity components by first valuing the liability component. The fair value of the liability component at the time of issue was calculated as the discounted cash flows for the 2017 Debentures assuming an 20% discount rate, which was the estimated rate for a similar debenture without a conversion feature. The fair value of the equity component (conversion feature) was determined at the time of issue as the difference between the face value of the 2017 Debentures and the fair value of the liability component, less a deferred income tax adjustment to reflect the book to tax difference in value of the 2017 Debentures at the time of issuance. As the Company has excess tax assets to offset the deferred tax liability, which was created from the book to tax difference in value of the 2017 Debentures, the deferred tax liability was reversed, resulting in a deferred tax recovery of $79,775.

Transaction costs of $25,440, were incurred and have been recorded pro rata against the liability and equity components. The liability balance of the transaction costs will be amortized over the life of the debenture.

Interest and accretion expense for the three and nine months ended December 31, 2017 was $26,101 (December 31, 2016: $nil).

6. SHARE CAPITAL

a) *Share Capital*

Unlimited common and preferred shares without par value

b) *Restricted Share Units ("RSUs")*

The RSU plan provides for the issuance of common shares from treasury upon the exercise of vested RSUs at no additional consideration. The current maximum number of common shares authorized for issue under the RSU plan is 3,491,057. The RSUs have vesting conditions determined by the board of directors.

A summary of the changes in RSUs is as follows:

	Number of RSUs
Balance - March 31, 2016	2,596,354
Settled	(1,829,689)
RSUs outstanding - March 31, 2017	766,665
Settled	(300,000)
Cancelled	(33,333)
RSUs outstanding - December 31, 2017	**433,332**

RSU expense for the three months ended December 31, 2017 was nil (December 31, 2016: $7,708) which was recorded within Share-based payment expense in the Statement of Loss and Comprehensive Loss.

RSU expense for the nine months ended December 3, 2017 was $15,417 (December 31, 2016: $96,769) which was recorded within Share-based payment expense in the Statement of Loss and Comprehensive Loss.

c) *Stock options*

A summary of the changes in the stock options is as follows:

	Options		Weighted average
Options outstanding - March 31, 2016	3,830,950	$	0.17
Expired	(155,000)		0.20
Granted	1,280,000		0.25
Options outstanding - March 31, 2017	4,955,950		0.19

Balance March 31, 2017	20,173,750		0.30
Expired	(15,248,750)		0.30
Balance December 31, 2017	**4,925,000**	**$**	**0.30**

7. COMMITMENTS

Effective March 1, 2011 (amended on July 1, 2012) the Company entered into an agreement with an affiliated company, with a director and officer in common, in respect of shared lease, overhead and service costs. Under the agreement, the Company is billed quarterly for office rental and other services relating to its office in Vancouver. The agreement expires on December 31, 2018. Either party may terminate the agreement by providing 90 days' notice.

As part of the acquisition of the Ungava Bay mineral properties, commencing on November 30, 2011, Oceanic must pay advance net smelter royalty ("NSR") payments of $200,000 per year, which will be credited against all future NSR payments payable from production (Note 4b).

The committed charges for the Company are as follows:

December 31,	Vancouver office rent	NSR payments	Total commitments
2018	34,358	400,000	434,358
2019	8,486	200,000	208,486
Thereafter	-	400,000	400,000
	$ 42,843	$ 1,000,000	$ 1,042,843

8. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION

a) *Key Management Compensation*

	$ 34,738	$ 67,558	**$ 222,081**	$ 321,730

As at December 31, 2017, the Company owed $17,500 in directors' fees, and unpaid salaries and consulting fees of $15,000 to an officer of the Company, and $28,750 to a director of the Company.

b) *Payments for services by related parties*

During the three and nine months ended December 31, 2017, the Company incurred corporate consulting fees of $28,750 and $86,250, respectively (December 31, 2016: $28,750 and $86,250, respectively), to Sirocco Advisory Services Ltd. ("Sirocco"), a company controlled by a director of the Company. As at December 31, 2017, the Company owed $28,750 to Sirocco relating to unpaid consulting fees.

During the three and nine months ended December 31, 2017, the Company incurred corporate consulting fees of $15,000 and $45,000, respectively (December 31, 2016: $15,000 and $32,500, respectively) to Sinocan Consultant Hong Kong Ltd. ("Sinocan"), a company controlled by Bing Pan, the Interim CEO of the Company.

8. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION (continued)

b) Payments for services by related parties (continued)

As disclosed in Note 7, the Company is charged shared lease, overhead, and service costs by Atlantic Gold Corporation, a company with a director and officer in common. For the three and nine months ended December 31, 2017, the Company incurred $9,250 and $47,345, respectively (December 31, 2016: $18,128 and $55,735, respectively) in shared lease, overhead, and service costs. As at December 31, 2017, the Company owed $48,167 to Atlantic Gold Corporation (March 31, 2017: $4,374). Refer to Note 7 for a listing of future commitments in respect of such lease costs.

In September 2017, the Company completed a non-brokered financing by way of issuance of convertible debentures, whereby $105,000 of the debentures are held by directors and officers of the Company (refer to Note 5b for terms of the convertible debentures). The convertible debentures are secured against the assets of the Company.

All related party transactions were made on terms equivalent to those that prevail in arm's length transactions.

9. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is based on available public market information or, when such information is not available, estimated using present value techniques and assumptions concerning the amount and timing of future cash flows and discount rates which factor in the appropriate credit risk. The carrying values of cash and cash equivalents, restricted cash, accounts payable, accrued liabilities, due to related parties and convertible debenture liability approximate their fair values due to their short-term nature.
